Art Unit: 2818

**Election/Restriction**

1 Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-29, drawn to **an apparatus for depositing and planarizing on a substrate**, classified in class 216, subclass 38.

II. Claims 30-88, drawn to **a method for processing a substrate**, classified in class 438, subclass 692.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and apparatus made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different apparatus or (2) that the apparatus as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case unpatentability of the group I invention would not necessarily imply unpatentability of the group II invention, since the apparatus of the group I invention could be made by processes materially different from those of the group II invention, for example, the material can be deposited by sputtering process instead of electro-chemical plating.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art shown by their different classification, the fields of search are not co-extensive and separate examination would be required, restriction for examination purposes as indicated is proper.

Art Unit: 2818

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).
6. Any inquiry concerning this communication should be directed to the Group Receptionist at telephone number (703) 308-7724.
